

# RAMSEY ROOT

YOUR FRIENDLY NEIGHBOURHOOD BACKEND ALCHEMIST! 🚀

Hey there! I'm Ramsey Root, a backend developer who loves crafting elegant solutions with a touch of magic. I specialize in turning requirements into reality using the robust powers of **Django** and **Spring Boot**, and I'm perfectly at home navigating the currents of various databases.

I don't have a CV, and don't plan on making one

You could just look up my projects at [ramseyroot.github.io](https://ramseyroot.github.io)

Send message by a bird (tweety) [https://x.com/DoItNow\\_Network](https://x.com/DoItNow_Network)

or dark magic (whatsapp) +233 5353 724 00

**Skip the formalities and just give me a call!** Let's connect and create something worth it ( or fun at least).

Come hither, great Knight!
